# EdgeDroid

An Experimental Approach to Benchmarking Human-in-the-Loop Applications

M. Olguín Muñoz[†], J. Wang[‡], M. Satyanarayanan[‡] and J. Gross[†]
[†] KTH Royal Institute of Technology
[‡] Carnegie Mellon University

Outline

- Introduction & Background

- Experimentally Benchmarking Human-in-the-Loop
- Conclusions

Feedback

Approach: Motivation

Sensory Input

Human-parseable
Feedback

What if we could do away with the human user?

Approach: Motivation

Sensory Input

Human-parseable
Feedback
What if we could do away with the human user?

EdgeDroid: Idea

- Generate realistic, real-time inputs.
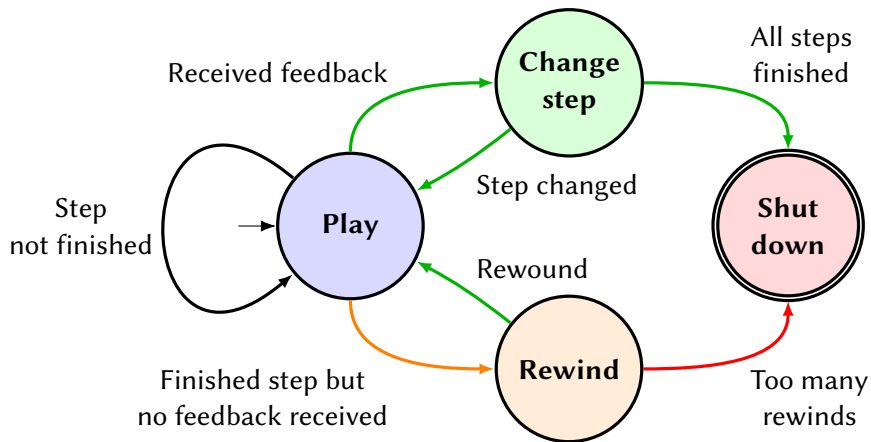

- Correctly react to feedback.

EdgeDroid: Idea

- ► Generate realistic, real-time inputs.
  - ► Trace of human-generated inputs.

- ► Correctly react to feedback.
 - ► Model of human interaction.
